To: jeff@amazon.com

Dear Mr. Jeffrey P. Bezos,

Greetings from the City of Greater Noida, INDIA!

I represent the Foundation for Campaign Against Plastic Pollution, a Non-Governmental Organisation based in India, which is engaged in an aggressive campaign against plastic pollution essentially through awareness campaigns, education and advocacy. More details can be seen on our website at <https://capp.org.in>

We understand that your company had given a public commitment to phase out plastic packaging for delivering items at the doorsteps of your customers. However, we find that Amazon India is still using plastic packaging. Please see the attached picture, which is of a delivery made just yesterday.

May I request you to kindly intervene in the matter and prevail upon Amazon India to quickly switch over to non-plastic packaging.

With best regards,

Yours sincerely,

Anoop Kumar Srivastava
Founder-Director
